1,07 €

Black full screen for
Amazfit Bip U, A2017

15,55 €

Step 1 - straps

We unhook the straps to work with greater comfort.

Step 2 - We apply heat

We apply heat to the screen, and with the help of a thin and rigid tool we will lift it a little to introduce another plastic tool, with which it will be less likely to damage the screen, and we will take off the edges.

Step 3 - Drums

We remove the Phillips screw (PH # 00) that holds the shield that covers the battery connector, disconnect it, and with the help of a flat-tipped tool we will detach it.

Step 4 - Fullscreen

We remove the two Phillips screws (PH # 00), unhook the shield that is above the motherboard, and once removed we can disconnect the screen that we have to replace.
