2,19 €

Pinza antiestática ESD redondeada

3,06 €

Set of professional tools for opening smartphones and tablets

18,97 €

Smartphones and PC repair tool case

35,92 €

Step 1 - Remove back cover

We start by removing the back cover. We can unlock it using an opening tool or directly with our hands.

Step 2 - Remove intermediate housing

We remove the fourteen Phillips screws (PH # 00) that hold the middle housing and speaker module. With an opening tool, we will disengage the module by levering it.

Step 3 - Intermediate housing

Inserting the tool between the frame and the chassis of the screen we will be able to disengage them.

Step 4 - Auxiliary plate

To finish, we disconnected the interconnection flex and the antenna cable and we can take off the auxiliary plate of the chassis.
