Step 1

Then we give you the steps to follow so you can configure the control of various BMW models:

- **SERIES 3 1998**
- **SERIES 5 1996- 03**
- **SERIES 7 1995- 02**

Step 2 - Contact

We enter the vehicle, close the door, put and remove contact and remove the key.

Step 3 - Configuration

Press the unlock button (the button that has the drawing of the arrow), and then without releasing it, press the central button 3 times in less than 10 seconds. The closures will act indicating that the command has been programmed, to exit programming put and remove contact.
