ESD redondeada

3,06 €

Special SAT 0.75mm  
high friction PVC pick

1,07 €

Suction cup to  
separate smartphone  
screens

4,36 €

### Step 1 - Tray

First of all we will have to remove the tray from the cards.

## Step 2 - Back case

Remove the two Torx screws (T3) from the lower part of the housing, and with the help of a tool with suction cups and a plastic tine unhook the back cover.

### Step 3 - Frontal camera

Unhook the shield that covers the connector of the camera, and with the help of a flat tool we will disconnect the camera that we are going to replace.
