screwdriver with 24
magnetic
replacement bits

10,41 €

Step 1 - Remove back cover

We start by removing the two Phillips screws (PH # 00) that hold the case at the bottom and also the SIM / SD tray. With a flat tool, we will disengage the chassis housing.

Step 2 - Remove internal casing

Remove the eleven Phillips screws (PH # 00) that hold the motherboard housing and pry it off.

Step 3 - Front camera

To finish, we remove the adhesive that covers the camera, disconnect it and disengage it.
